The next set of questions are about your teenager's intake of alcohol and drugs, and also her smoking and anti-social behaviour. We realise that these may not be relevant or be difficult to answer, but we would be grateful if you can answer as many as possible, even if you feel you don't really know. We would like to understand if there is a difference between what teenagers say they do and what parents (in general) know.

Life has many ups and downs. Sometimes people feel very upset. These feelings can be so bad that people may feel suicidal or want to self-harm. We know this is a sensitive subject, but it is important to ask about it now, as it is not uncommon. By finding out about self-harm we can find ways of helping people.
