**Statement Text**

Ask the child to read out each word from the 'FIRST WORD LIST' of the DIAGNOSTIC READING SECTION of the instruction booklet (page 7). Mark only those words which are pronounced incorrectly. The judgement of correctness should be made within terms of the child's particular dialect, accent or customary intonations. When the child has failed four successive items please stop the reading and underline carefully the last word attempted.

#### Statement Text

Please read out each of the following situational descriptions to the child and summarise the answers, in about 20 to 25 words, on the lines below each item. The main purpose of the questions is to examine the reasoning underlying a child's statement that an action was right or wrong. Do not amplify in any way or discuss the item before noting the answers, although the question of 'why' the child has made his or her judgement may be pursued with subsidiary questions. Please do not offer your views to the child on the social imperatives involved here, until all the items have been answered.
