nshd_61_htq - 1961 Questionnaire for Headmasters and Headmistresses of Schools Attended by Survey Children
Statement Text

The children enrolled in this Survey were born in March 1946 and with the help of their parents, health visitors, school nurses and teachers a detailed account has been obtained of their health and development during the past 15 years. The children come from all types of home and are attending all types of school, both Independent and Local Authority. They are now reaching the age when many of them will be leaving school and the Joint Committee feels some uniform assessment of their progress together with background information about the secondary schools they have been attending is most desirable. During the past 15 years only 10 per cent of the children have been lost and the value of this inquiry depends on our continuing to obtain information for every possible survey child.

Statement Text

There may be more than one survey child in your school, but since this form contains only general questions relating to the school it will only be necessary for you to fill in one of these forms (S. 8b). But it is essential that you enter on this form the full names and reference numbers of all the survey children concerned. These will be found on the accompanying test booklets (Forms N.F.4) and should be copied from there. When you have filled in this form please return it, together with the test booklets (Forms N.F.4) and Teacher's Questionnaires (Forms S. 8a), to the Director of Education.
