nshd_65_sq - 1965 School and College Questionnaire

1965 School and College Questionnaire

Collection Events

1965 - 1965

Collection Organization

Mode of Collection

Self-administered questionnaire using a traditional paper questionnaire.

Mode of Collection

Collecting and assembling data from multiple, often heterogeneous sources that have one or more reference points in common, and at least one of the sources was originally produced for other purposes.

1965 School and College Questionnaire

Type Statement	

Statement Text

This pupil or student was enrolled at birth in a National Survey of Health and Development. With the help of his parents and of health visitors, school teachers and nurses, a detailed account has been obtained of his health and development during the past 18 years. The Survey pupils and students come from all types of home, and are attending, or have attended all types of school and college, both local authority and independent: a great number are of course already in employment. Only 2% of those who were at school in England, Wales and Scotland have been lost, and the value of this enquiry depends on our continuing to obtain information for every possible Survey member: the fewer the losses the more valuable is the information received.

 s_intro_xi	
Name s_intro_xi	Location Sequence › nshd_65_sq
Type Statement	

Statement Text

We are particularly interested in the group that was still at school or college last autumn and hope that you will be able to give us information about the above-named pupil's or student's examination record, leaving date and present whereabouts. Those entering higher education will be part of a special study over the next year or so.

 s_intro_xii
